

Designer Pattern Entrance Flooring

Balco's new Designer Pattern Entrance Flooring provides various color schemes to enhance the look of entrances to buildings and to allow greater coordinating options for surrounding architectural finishes.

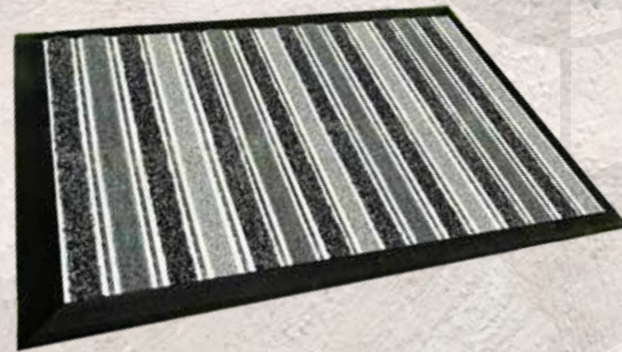

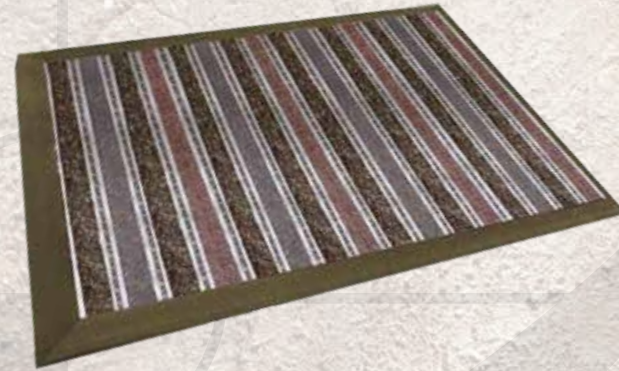

4 DESIGNER PATTERNS *with* 5 DIFFERENT MODELS TO CHOOSE FROM

Our new Designer Pattern Entrance Flooring has a repeating pattern of alternating tread rails of abrasive, heavy duty and standard carpet that provides multiple cleaning surfaces and extended life to the mat and interior floor finishes.

Enhance Your Entrance!

STANDARD

DESIGNER

Balco Designer Pattern Entrance Flooring improves the look and function of your entryway compared to standard entrance mats and grids. The combination of carpet and abrasive treads create artistic rhythm and durable wear creating an inviting path into any building.

Features and Benefits

- Can be designed to fit almost any size and shape including revolving doors
- Abrasive bars repeat every fourth tread prolonging carpet life
- Improves air quality by trapping debris beneath the surface
- Beautifies building entryways for a good first impression
- Simple maintenance with roll-up or lift out sections
- Made from ECO friendly recycled materials
- Increases lifespan of interior floor surfaces
- Exceeds ADA standards for slip resistance
- Great for indoor and outdoor use
